IndyStar

Fast Pulse, High Precision Processing

IndyStar is a rugged high-duty cycle excimer laser designed for fast pulse frequency applications as high as 2000 Hz. Based on proven ALMETA tube technology, the Semi-S2 certified IndyStar operates over many billion pulses at ultra-short 193 nm and 248 nm wavelengths. The IndyStar series is engineered to meet the highest demands in every aspect of an industrial laser.

FEATURES & BENEFITS

• Repetition rate of 1 and 2 kHz for fast processing
• TimeLok and PowerLok functionalities for ultimate pulse control
• ALMETA tube design to ensure most efficient processing
• Semi-S2 compliance and premix gas supply to facilitate production floor integration

APPLICATIONS

• Photomask Inspection
• Inkjet Nozzle Drilling
• Optics Testing

Coherent follows a policy of continuous product improvement. Specifications are subject to change without notice. Coherent’s scientific and industrial lasers are certified to comply with the Federal Regulations (21 CFR Subchapter J) as administered by the Center for Devices and Radiological Health on all systems ordered for shipment after August 2, 1976.

Coherent offers a limited warranty for all IndyStar Lasers. For full details of this warranty coverage, please refer to the Service section at www.Coherent.com or contact your local Sales or Service Representative. MC-038-08-0M0219Rev.C Copyright ©2019 Coherent, Inc.
