

# CPC-II

## Compact Pulse Compressor for Vitara

The CPC-II pulse compressor accessory for Vitara is designed to deliver near transform-limited pulses at the target sample. The CPC-II achieves this by introducing continuously variable negative Group Delay Dispersion (GDD/prechirp) to precisely compensate for normal dispersion of downstream optics. Using chirped-mirror technology, the CPC-II provides an ultra-compact footprint for maximum ease-of-use and the input and output beam ports are in line to enable simple experimental setups.

### FEATURES & BENEFITS

- Maximizes peak power for enhanced nonlinear processes
- Coarse and fine GDD control for precise pulse compression
- In-line input and output ports for easy alignment
- Pre-compensates for positive dispersion from downstream optics
- Ultra-compact footprint

### APPLICATIONS

- Second Harmonic Generation
- THz Generation
- Coherent Anti-Stokes Raman Scattering (CARS)
- Multiphoton Imaging
- Non-Linear Optics

SPECIFICATIONS <sup>1</sup>	CPC-II
Typical GDD Compensation Range (fs <sup>2</sup> ) (±10%)	-440 to -2640
Course GDD Tuning Step Size (fs <sup>2</sup> )	10 steps of approx. -220
Fine GDD Tuning (fs <sup>2</sup> )	Continuous over approx. +400
Transmission Efficiency (%)	>75
Input Wavelength Range (nm)	700 to 900
Input Bandwidth (nm)	≤125
Typical Output Pulse Length <sup>2</sup> when used with Vitara-T <sup>3</sup> (fs)	
for 100 nm bandwidth	<15
for 50 nm bandwidth	<25
for 30 nm bandwidth	<40
Input Beam Diameter (mm)	~2

1 Subject to change without notice.  
 2 Assumes an autocorrelation deconvolution factor of 0.65.  
 3 Pulse length and bandwidth defined at FWHM.

## TYPICAL PERFORMANCE DATA

**Typical Compressed Pulse Width  
from Vitara-T with CPC-II**

**Typical Compressed Pulse Width  
from Vitara-T with CPC-II  
(pulse measured using FC Spider)**

Coherent follows a policy of continuous product improvement. Specifications are subject to change without notice. Coherent's scientific and industrial lasers are certified to comply with the Federal Regulations (21 CFR Subchapter J) as administered by the Center for Devices and Radiological Health on all systems ordered for shipment after August 2, 1976.

Coherent offers a limited warranty for all CPC-II Compact Pulse Compressors. For full details of this warranty coverage, please refer to the Service section at [www.coherent.com](http://www.coherent.com) or contact your local Sales or Service Representative.
